

Evidence Presentation Unit (EPU) Instruction Manual

This manual provides an overview of the Evidence Presentation Unit components and basic operating instructions.

1. Full System Overview

The Evidence Presentation Unit includes a display monitor, Lenovo mini PC, document camera, Blu-ray/DVD player, wireless presentation system, keyboard, mouse, and remote controls.

2. Main Components

Barco ClickShare & TASCAM Blu-ray/DVD Player

Used for wireless screen sharing and playback of Blu-ray/DVD media.

Document Camera (ELMO)

Allows display of physical documents and objects on the presentation monitor.

Keyboard & Mouse Work Surface

Provides operator control for the Lenovo PC and connected presentation devices.

Lenovo Mini PC

Primary computer used to run presentations, video playback, and evidence display.

Remote Controls

Used to operate the monitor and Blu-ray/DVD player remotely.

3. Startup Instructions

1. Verify the EPU is connected to AC power.
2. Power on the display monitor using the monitor remote control.
3. Power on the Lenovo mini PC if it is not already running.
4. Turn on the Barco ClickShare unit if wireless presentations are needed.
5. Use the keyboard and mouse to log into the PC.
6. Launch required presentation or evidence software.
7. Insert a Blu-ray/DVD into the TASCAM player if media playback is required.

4. Operating the ELMO Document Camera

1. Position the camera arm above the document or object.
2. Ensure the document is centered under the camera.
3. Select the correct input source on the display system.
4. Adjust camera angle and focus as needed for clarity.

5. Shutdown Procedure

1. Close all open applications on the Lenovo PC.
2. Shut down the Lenovo PC through Windows.
3. Power off the monitor.
4. Turn off the Blu-ray/DVD player and ClickShare unit if applicable.
5. Store remote controls in the designated area.

6. Notes & Best Practices

- Keep cables organized and clear of walkways.
- Handle remote controls carefully and return them after use.
- Do not block ventilation openings on the Lenovo PC or Blu-ray player.
- Clean the display and document camera lens using approved electronics cleaning materials.
